ORDER FOR NOTICE AND HEARING

On June 24, 2021, Virginia-American Water Company ("VAWC" or "Company") filed with the State Corporation Commission ("Commission") a petition ("Petition")¹ (i) for authority to acquire utility assets at fair market value ("FMV") pursuant to the Utility Transfers Act² and the Commission's Rules for Water or Wastewater Utility Applications Seeking Fair Valuation of Acquisitions of Municipal Water or Wastewater Systems,³ and (ii) for amendment of VAWC's certificate of public convenience and necessity ("CPCN") pursuant to Code § 56-265.3.⁴ On that same date, the Company also filed a Motion for Protective Ruling.

Through its Petition, the Company seeks to purchase the Town of Waverly's ("Waverly") water system for FMV.⁵ Per VAWC, upon approval by the Commission, the Company will

"acquire substantially all of the assets that constitute or are used in furtherance of the water treatment facilities and distribution system owned and operated by Waverly."⁶

According to the Petition, Waverly's system is old, in need of repair and, as a result of various expansions, has a number of dead-end lines which have created reliability problems.⁷ VAWC states that the Company (including its predecessors) has over 100 years of water system operation experience⁸ and can provide, among other things, water research and compliance efforts, dedicated enterprise-wide water quality teams, customer service, and around-the-clock emergency response seven days a week.⁹

VAWC states that all of the assets that constitute Waverly's water system are currently used and useful and are intended to remain that way following the Company's acquisition.¹⁰ The Asset Purchase Agreement dictates that VAWC will purchase Waverly's water system assets at the lesser of \$2.5 million or the FMV of the water system as determined under Virginia law and the FMV Rules,¹¹ so long as the FMV of the system is more than \$1.9 million.¹² VAWC requests that the Commission determine that the Company's initial rate base for the acquired water system be set as prescribed in 20 VAC 5-210-30 B.¹³ The Company also states that

VAWC will maintain the current rates for Waverly's legacy customers' water service for two years, after which the Company anticipates proposing to move rates for the Waverly water system toward the Company's Hopewell District consolidated rate structure.¹⁴ VAWC currently estimates rates for Waverly customers are anticipated to increase approximately 30% for most customers over the five-year period following closing of the transaction.¹⁵

In addition to VAWC's asset transfer request pursuant to Code § 56-89,¹⁶ the Company requests amendment of its CPCN, Certificate No. W-328, pursuant to Code § 56-265.3 D, to include Waverly's water system.¹⁷

On July 8, 2021, the Commission's Staff ("Staff") filed in this docket a Deficiency Letter pursuant to FMV Rule 20 C, notifying VAWC of numerous deficiencies in the Company's filing.¹⁸ On July 28 and August 10, 2021, VAWC supplemented its Application. On August 11, 2021, the Staff filed a Response Letter notifying the Company that the supplements cured the previously identified deficiencies and that the Staff considered the Company's case to now be filed pursuant to the FMV Rules.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; the Company should provide public notice of its Petition; public hearings should be scheduled for the purpose of receiving testimony and evidence on the Petition; interested persons should have an opportunity to file comments on the Petition or to

participate in this proceeding as a respondent; and the Staff should be directed to investigate the Petition and to file testimony and exhibits containing its findings and recommendations thereon.

The Commission further finds that a Hearing Examiner should be assigned to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company's Motion for Protective Ruling and filing a final report containing the Hearing Examiner's findings and recommendations.

On June 24, 2021, Virginia-American Water Company ("VAWC" or "Company") filed with the State Corporation Commission ("Commission") a petition ("Petition") for authority to acquire utility assets at fair market value ("FMV") pursuant to the Utility Transfers Act, Code § 56-88 *et seq.*, and the Commission's Rules for Water or Wastewater Utility Applications Seeking Fair Valuation of Acquisitions of Municipal Water or Wastewater Systems, 20 VAC 5-210-10 *et seq.* ("FMV Rules"). VAWC also seeks a Certificate of Public Convenience and Necessity pursuant to Code § 56-265.3. Through its Petition, the Company seeks to purchase the Town of Waverly's ("Waverly") water system for fair market value. Per VAWC, upon approval by the Commission, the Company will "acquire substantially all of the assets that constitute or are used in furtherance of the water treatment facilities and distribution system owned and operated by the Town of Waverly."

According to the Petition, Waverly's system is old, in need of repair and has a number of dead-end lines as a result of various expansions, which has created reliability problems. VAWC states that the Company (including its predecessors) has over 100 years of water system operation experience, and can provide, among other things, water research and compliance efforts, dedicated enterprise-wide water quality teams, customer service, and around-the-clock emergency response seven days a week.

VAWC states that all of the assets that constitute Waverly's water system are currently used and useful and intended to remain that way following the Company's acquisition. The Asset Purchase Agreement dictates that VAWC will purchase Waverly's water system assets at the lesser of \$2.5 million or the FMV of the water system as determined under Virginia law and the FMV Rules, so long as the FMV of the system is more than \$1.9 million. VAWC requests that the Commission determine the Company's initial rate base for the acquired water system be set as prescribed in 20 VAC 5-210-30 B. The Company also states that VAWC will maintain the current rates for Waverly's legacy customers' water service for two years, after which the Company anticipates proposing to move rates for the Waverly water system toward the Company's Hopewell District consolidated rate structure. VAWC currently estimates that rates for Waverly customers are anticipated to increase approximately 30% for most customers over the five-year period following closing.

In addition to VAWC's asset transfer request pursuant to Code § 56-89, the Company requests amendment of its certificate

of public convenience and necessity, Certificate No. W-328, pursuant to Code § 56-265.3 D, to include Waverly's water system.

Interested persons are encouraged to review VAWC's Petition and supporting documents in full for details about these and other proposals.

TAKE NOTICE that the Commission may adopt rates that differ from those appearing in the Company's Petition and supporting documents.

The Commission entered an Order for Notice and Hearing that, among other things, scheduled public hearings on the Company's Petition. On February 22, 2022, at 10 a.m., a Hearing Examiner appointed by the Commission will hold a telephonic hearing for the purpose of receiving the testimony of public witnesses, with no public witnesses present in the Commission's courtroom. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@scc.virginia.gov; or (iii) by calling (804) 371-9141.
